

Open and Enclosed Skips

Open Skips

Open skips are ideal for bulky waste streams. They are widely used on construction and demolition projects, or any sites that produce large quantities of waste and recycling.

Our skip sizes range from 8 CU YD to 14 CU YD, but we can custom make containers to any size and volume.

Materials

—Suitable for:

Enclosed Skips

Enclosed skips are suitable for larger, heavier materials. They are also ideal for sites that produce a large volume of general waste or recycling. Our closed top skips can even be used for asbestos due to their lockable lids.

Our skip sizes range from 8CU YD to 14 CU YD, but we can custom make any container to the volume and dimensions you require.

Materials

—Suitable for:

Suitability
