- selecting and monitoring our supply chain against set criteria
- regular, documented management reviews of each of the above

We are committed to the continual development and improvement of the Quality Management System. Our quality performance is constantly monitored and we implement improvements when appropriate. This Quality Policy is regularly reviewed to ensure its continuing suitability.

Copies of this Quality Policy and the Quality Manual are made available to all members of staff. The Directors have ultimate responsibility for Quality, but all our employees understand the requirements of this Quality Policy, its importance in ensuring the company complies with all relevant statutory, regulatory and legislative requirements, and their obligations to work in accordance with the contents of the Quality Manual.
